

The Impact of Inspection – still an unanswered question?

SICI General Assembly and International Conference

October 15th to October 17th 2014, Dresden, Germany

Evaluation form

May we kindly ask you to complete this short evaluation form? Your comments will be useful for the organisers and SICI.

- Please rate the quality of the following aspects of the Conference on a scale from 1 – 4; where 1 is very poor and 4 is very good

Aspect	1 (very poor)	2 (poor)	3 (good)	4 (very good)
Content of the Conference		2	7	6
Work in country groups		1	9	5
Efficiency of School visit		1	5	9

Comment :

highly instructive and informative conference, excellent exchange

we need to “prepare” academics more on what and how to present in order to get the best

it was very high level of organization

I was a guest and in SICI conference for first time. I found the conference in all aspects highly stimulating both professionally and as a forum for networking and mirroring one owns working processes and views.

I would have liked to see and hear from more of the Nordic countries in the country groups, speaking with those present was on the other hand a good experience.

It would be helpful to SICI to have your opinions on the following :

2.1. Are there any follow-up activities which you might suggest for SICI?

- *workshops on VET (upper secondary, Sec II+ post secondary*
- *Professional dialogue*
- *Development of the inspectors*
- *As a guest and first timer all activities are of interest.*

2.2. How might you yourself / your Inspectorate follow up on the Conference?

- *more intensive commitment from the Austrian side in future*
- *spread information about the conference and workshops to come to the evaluators*
- *very well (2x)very good*
- *possible*
- *several ideas to discuss*
- *I have already informed the head of my office that this was very informative and good conference. I will write an report with main aspects from the meeting for my colleagues and office. I will in future look for information on SICIs webpage and also have information to better follow other countries webbased information on evaluation. Contacts were made that will lead to exchange for our and hopefully others benefit.*

Thank you! Your responses and comments are appreciated and will help us in organising and running future Conferences.
